

DaVinci's Newest Masterpiece

IQ2 Premium Dual Use Vaporizer

Clean. Cool. Control.

For connoisseurs who simply want the very best portable, dual-use vaporizer, DaVinci's newest provides cooler vapor and the ultimate flavor and control. The IQ2 empowers you to not only customize your cannabis experience through precision temperature and adjustable air flow, but also empowers you to track and report your dose per draw and per session.

Clean

DaVinci's Legacy of Exceptionally Clean Vaporizers Continues

Like the other DaVinci vaporizers, the IQ2 is built with purity in mind with medical-grade components. No metal or plastic parts touch your herb or contaminate the flavor of your vapor. The airtight, all ceramic air path is engineered with zirconia and a glass-lined oven to ensure unprecedented purity and flavor.

Cool

NEW: Air Dial™ for Adjustable Air Flow

Using the IQ2's air flow dial, adjust your device for easier draws and enjoy vapor that is 50% cooler than other vaporizers. Reduce your draw resistance and experience bigger, denser vapor.

Control

NEW: On Device and In App Dosage Calculation

Input your strain potency and the amount of herb or extracts in your oven and your IQ2 will track and report dose per draw and per session. Add a maximum dose per session in the app and your IQ2 will alert you when you have reached your desired dose.

DAVINCI

IQ2 Improvements

1. **Dual Use:** The IQ2 includes a Dosage Pod adaptable for use with extracts.
2. **Air Flow:** The IQ2 features an Air Dial™ that enables you to customize your airflow and draw resistance. The Air Dial enables you to adjust your air flow to 40% less and 67% more than the IQ. The IQ2 features 35% more air holes. Increasing the airflow on IQ2 to allow for cooler, less dense vapor. Decreasing the airflow via the Air Dial will allow for a more dense vapor experience.
3. **Dosage:** The IQ2 is the first Fill Your Own - Know Your Dose portable vaporizer. Enter your strain potency and the amount of herb or extracts in your oven and your IQ2 will track and report dose per draw and per session. Add a maximum dose per session in the app and your IQ2 will alert you when you have reached your desired dose.
4. **Cleaning:** The shape of the vapor path has been adjusted so that it's even easier to clean.
5. **Oven:** The IQ2's oven is better insulated from the battery for better performance. It's also 20% thicker for a more flavorful, even roast of your dry herb.
6. **Pearl:** The IQ's pearl extends 30% further and is easier to adjust making it even easier to modify your oven size and pack your material more tightly.
7. **Slightly Larger:** Due to the Air Dial, extra battery insulation and thicker oven, the IQ2 is 9% larger and 0.4oz/11g heavier.
8. **Exterior:** While the IQ features a sandblasted aluminum shell, the IQ2's shell is brushed aluminum and is available in four colors: onyx, gunmetal, azure and amethyst.

IQ2 Specifications

Compatible With	Dry Herb and Extracts
Capacity	0.5g Dry Herb Oven, 0.2g Dosage Pod
Heating System	Glass Lined Oven, Heat-not-burn Conduction
Air Flow	Adjustable, Five Levels
Air Path	Airtight, Glass and Zirconia Ceramic
Temperature Control	Smart Paths and Precision Temperature Mode On Device LED Display and App Control
Smartphone App	Personalization, Temperature Control, Track and Report Dosage, Update Firmware
Materials Outside	Brushed Aluminum
Size	1.75 x 3.61 x 0.97 inches / 4.5 x 9.2 x 2.5 cm
Weight	5.6 oz / 159 g
Heat-up Time	Less Than 1 Minute
Battery	Type 18650, 1 Hour Use, Removable/Rechargeable
Charging Time	6 Hours in IQ2 (less in external chargers, sold separately)
Warranty	10 Years
